CENSUS OF THE COMMONWEALTH, 30TH JUNE, 1954

NO. 14: WESTERN AUSTRALIA - POPULATION OF ROAD DISTRICTS

This Bulletin contains particulars of the population recorded in each Road District in Western Australia at the Census of 30th June, 1954. Figures are also shown for each Non-municipal Town with a population of 1,000 persons or more within these Road Districts.

These figures are issued at a comparatively early stage in an interim form as they are derived from the initial Field Count and may in some cases be subject to considerable amendment on completion of tabulation.

The Road Districts and the Non-municipal Towns have been arranged in groups by Statistical Zones (Divisions), then in alphabetical order. Statistical Zones are identical with "Statistical Divisions" as used in publications of State Statisticians. They are not identical with Census Divisions.

Non-municipal Towns, as the name implies, are towns which are not separately incorporated for purposes of local government. They have been indicated herein by adding the letters "N.M." after the name of the town. Boundaries of these towns were specially determined for Census purposes to embrace the urban areas which could be regarded as the town.

The population of urban parts of some municipal towns has spread over their municipal boundaries into a contiguous road district. This is included with the population of such road district. Action is being taken to ascertain from Census records the urban population of municipal towns which lies outside the municipal boundaries of such towns.
